 **YAMAHA**

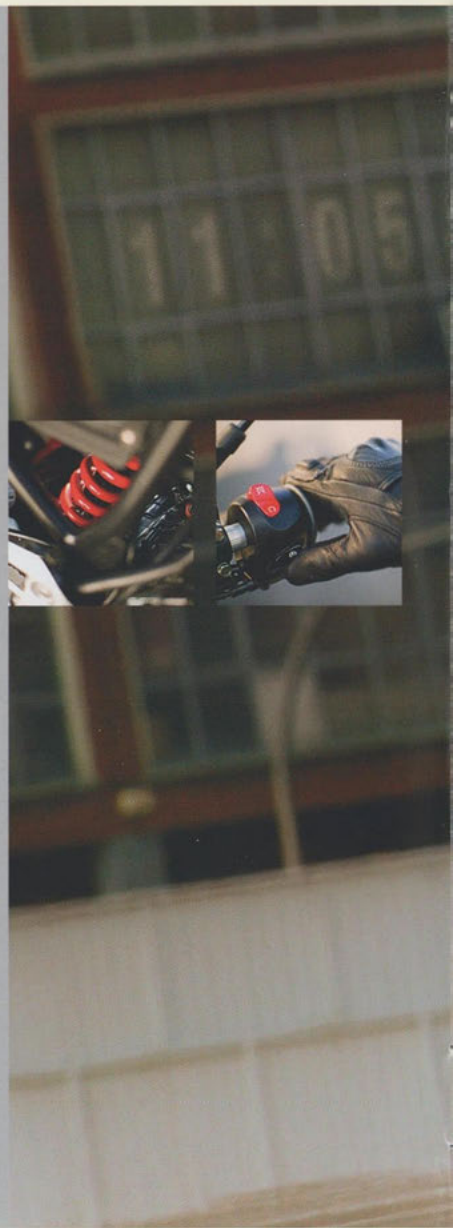

XT660X

HERE'S A DIFFERENT WAY TO RULE THE STREET –
A NEW KIND OF MOTORCYCLE THAT WAS
BORN TO LIVE LOOSE, BORN TO LOVE THE ROUGH
AND TUMBLE OF THE CITY.

Take fun to the max

STREET FUN ISN'T ALL ABOUT HORSEPOWER, it's about control and finesse. It's about getting stuck in and finding your own bit of tarmac. Which is where our XT660X comes into your life. Inspired by the extreme world of Supermotard racing, the XT660X was built to play the street – which is why its new fuel-injected, liquid-cooled, single-cylinder 660 cc motor is tuned for instant response, and why it's got all the grip and all the brakes you're ever going to need.

XT660X

XT660X

IT'S TOUGH OUT THERE. WHICH EXPLAINS WHY YAMAHA IS SO HOT ON BUILD QUALITY – TO GIVE YOU A MACHINE THAT CAN HANDLE LIFE ON THE STREET.

Urban high score

YAMAHA'S XT660X IS A TOOL – a motorcycle that can work it in the city like nothing else. It's custom built with a newly designed frame for the kind of tight corners you can't help getting into – punchy, light and easy to flick around – a total blast whatever kind of urban action you're into. And the XT660X is packed with trick kit including 17 inch Excel aluminium rims, twin upswept stainless-steel exhaust pipes with catalysers, a 320 mm front disc brake and Brembo calipers front and rear.

SUDDENLY YOU WANT OUT.
IT HAPPENS EVERY NOW AND
AGAIN, YOU NEED SOME AIR,

SO YOU GET OUT OF THERE.

You jump on your XT660R and you head out of town. People have been doing it for three decades, making Yamaha's legendary XT the world's favourite escape vehicle. This XT660R is the latest of the great XT range, a motorcycle that wants to get out there and do stuff, ducking down the street, hustling down some back lane, it'll do whatever you want it to do.

XT660R

Go your own way

GO WITH A MOTORCYCLE THAT'S GOT THREE DECADES OF EVOLUTION UNDER ITS SKIN, A MOTORCYCLE THAT'S GOT TOUGHER WITH EVERY PASSING YEAR.

So now you can do whatever feels right – hang out in town or head for the hills. Either way you know it's going to be an adventure. The XT660R's new liquid-cooled, fuel-injected 660 cc motor – featuring twin upswept stainless-steel exhaust pipes with catalysers – cuts to the chase, its riding position puts you right in control and that newly designed frame does whatever you tell it to do. And there's disc brakes, with Brembo callipers, front and rear to keep it all under control. XT660R – keep it tight, live it loose.
