Note: Revision of the forecast consolidated financial figures for the fiscal year ending December 31, 2010 was made during the second quarter ended June 30, 2010.

4. Other Information

For further information, please refer to Item 2, "Other Information," in the Attachment on page 10.

(1) Changes in significant subsidiaries during the period: None

Note: Items to be disclosed in "Changes in specified subsidiaries resulting from changes in scope of consolidation" during the period.

(2) Application of simplified and special accounting principles: Yes

Note: Items to be disclosed in "Application of simplified and special accounting principles to the quarterly consolidated financial statements"

- (3) Changes in accounting principles, procedures, presentation methods and other items
 - ①Changes arising from revision of accounting principles: None
 - ②Changes arising from other factors: Yes

Note: Items to be disclosed in "Changes in accounting principles, procedures, presentation methods and other items for the quarterly consolidated financial statements in changes in notes to quarterly consolidated financial statements"

(4) Number of shares outstanding (Common stock)

①Number of shares outstanding at the end of the period, including treasury stock	Second quarter ended June 30, 2010	349,757,784 shares	Fiscal year ended December 31, 2009	286,507,784 shares
②Number of treasury stocks at the end of the period	Second quarter ended June 30, 2010	659,436 shares	Fiscal year ended December 31, 2009	658,149 shares
③Average number of shares during the period	Six months ended June 30, 2010	310,052,002 shares	Six months ended June 30, 2009	286,022,305 shares

(*Note regarding review procedure for the quarterly consolidated financial statements)

The consolidated financial results presented herein are not subject to the quarterly review procedure specified by the Financial Instruments and Exchange Act. The review procedure for quarterly consolidated financial statements specified by the Financial Instruments and Exchange Act has not been completed at the time of the disclosure of these financial results.

(*Notice regarding forward-looking statements

Forward-looking statements including the forecast for the fiscal year ending December 31, 2010 presented in this document are based on the assumptions and beliefs of Yamaha Motor Co., Ltd. (the "Company") in light of the information currently available, and may differ significantly from actual financial results, due to various risks, uncertainties and other factors, including changes in business conditions surrounding the Yamaha Motor Group, changing consumer preferences, and currency exchange rate fluctuations.

For details on potential risks, uncertainties and other factors affecting the Company's operations, please see the Securities Report (filed on March 26, 2010).

Please refer to Item I-(3), "Qualitative Information on Forecast Results," in the Attachment on page 9 for forward-looking statements.

Net income per share described in Section 3 "Forecast Consolidated Financial Results for the Fiscal Year Ending December 31, 2010" on page 3 is computed based on the number of shares outstanding at the end of the period. These include new shares issued by public offering and other measures to increase capital on April 20 (55,000,000 shares) and on May 11 (8,250,000 shares).

With regard to amounts stated in 100 million yen units in this document, amounts less than ¥100 million are rounded off.

1. Qualitative Information on Consolidated Results During the Period

(1) Qualitative Information on Consolidated Operating Results

During the second quarter (April 1 through June 30) of the fiscal year ending December 31, 2010, Japan began to see signs of recovery from sluggish consumer spending; however, recovery came slowly to economies in Europe and the United States, and the financial crisis developing in southern Europe caused concern. Against this backdrop, demand for the Yamaha Motor Group's mainstay leisure products remained low. ASEAN and other emerging nations' economies, on the other hand, continued to expand. This helped increase the Company's consolidated net sales for the second quarter by 17.1% from the previous second quarter, to \(\frac{1}{3}\)66.3 billion. Operating income totaled \(\frac{1}{2}\)42.0 billion, an improvement of \(\frac{1}{2}\)42.3 billion from the previous second quarter, principally arising from increased motorcycle sales in the ASEAN region, the positive impact of exchange rates, and reduced depreciation, personnel and other expenses realized by reforming the profitability structure of businesses in developed nations. Ordinary income amounted to \(\frac{1}{2}\)28.3 billion, an improvement of \(\frac{1}{2}\)48.9 billion from the previous second quarter. Net income stood at \(\frac{1}{2}\)16.3 billion, a \(\frac{1}{2}\)75.2 billion gain.

Consolidated net sales for the six months ended June 30, 2010 increased 16.7% from the same period of the previous year, to ¥676.2 billion. Operating income totaled ¥35.0 billion, an improvement of ¥68.9 billion, and ordinary income reached ¥43.8 billion, a ¥80.7 billion gain. Net income stood at ¥23.8 billion, ¥98.5 billion better than the same period of the previous year.

Operating performance by segment

(1)Business segment

[Motorcycles]

In Europe and the United States, motorcycle sales for the second quarter (April 1 through June 30, 2010) decreased from the previous second quarter, reflecting negative factors including continued declines in demand in Europe and the United States, and ongoing market stock adjustments in the United States. In ASEAN countries and other emerging nations, on the other hand, sales increased steadily. In total, motorcycle sales rose 16.4% from the previous second quarter, to ¥258.5 billion. Operating income increased by ¥18.0 billion, to ¥14.2 billion, led mainly by sales increases in the ASEAN region; the positive impact of exchange rates; and fixed expense reductions realized from profitability structure reform at businesses in developed nations.

Sales for the six months ended June 30, 2010 rose 16.2% from the same period of the previous year, to ¥476.5 billion, while operating income improved by ¥28.0 billion, to ¥26.0 billion.

[Marine products]

Retail sales of outboard motors in the United States fell from the previous second quarter; however, wholesale shipments grew, following the completion of market stock adjustments. Consequently, marine product sales for the second quarter increased 14.1% from the previous second quarter, to ¥52.9 billion. Operating income improved by ¥8.5 billion from the previous second quarter, to ¥3.0 billion.

Sales for the six months increased 15.1% from the same period of the previous year, to ¥95.8 billion, while operating income improved by ¥14.0 billion, to ¥4.2 billion.

[Power products]

During the second quarter, retail sales of all-terrain vehicles (ATVs) in the United States fell from the previous second quarter; however, wholesale shipments grew, following the completion of market stock adjustments. In Europe, sales declined. In total, sales of power products amounted to \(\frac{4}{24}.1\) billion, virtually unchanged from the previous second quarter. Operating income improved by \(\frac{4}{8}.9\) billion from the previous second quarter to \(\frac{4}{1}.0\) billion. The gain was mainly attributable to the provision for product liabilities registered in the previous second quarter that was absent in the current second quarter.

Sales for the six months decreased 6.5% from the same period of the previous year, to ¥44.4 billion, due to a decline in demand for ATVs in Europe and the United States. Operating loss for the six months totaled ¥4.2 billion, an improvement of ¥15.9 billion from the same period of the previous year.

[Other products]

Sales in this segment for the second quarter grew 50.1% from the previous second quarter, to ¥30.8 billion, as performance for surface mounters, automobile engines and electrically power assisted bicycles increased in line with a recovery in demand, among other factors. Operating income gained ¥6.9 billion from the previous second quarter, to ¥5.8 billion.

Sales for the six months rose 53.8% from the same period of the previous year, to ¥59.5 billion, while operating income improved by ¥11.0 billion, to ¥9.0 billion.

②Geographical segment

[Japan]

Sales in Japan for the second quarter (April 1 through June 30, 2010) increased 23.6% from the previous second quarter, to ¥139.4 billion, reflecting sales increases for outboard motors, automobile engines, electrically power assisted bicycles, surface mounters and other products, which more than offset the negative impact of continued adjustments to motorcycle shipments to the North American market. Operating income improved by ¥19.0 billion from the previous second quarter to ¥3.2 billion, due to an increase in marginal profit resulting from expanded production volumes, coupled with fixed expense cutbacks.

Sales for the six months ended June 30, 2010 increased 10.2% from the same period of the previous year, to ¥268.2 billion, while operating income improved by ¥29.0 billion, to ¥0.7 billion.

[North America]

Sales in North America for the second quarter decreased 8.1% from the previous second quarter, to ¥50.7 billion, as delayed demand recovery in leisure markets pushed motorcycle sales down, although sales of outboard motors increased. Operating income improved by ¥12.3 billion, to ¥1.3 billion, due mainly to increased sales for outboard motors.

Sales for the six months decreased 18.8% from the same period of the previous year, to ¥92.9 billion, while operating loss improved by ¥18.1 billion, to ¥3.4 billion.

[Europe]

Outboard motor sales for the second quarter rose from the previous second quarter; however, sales of motorcycles and ATVs fell. In total, sales in Europe dropped 16.0%, to ¥57.9 billion. Operating income improved by ¥1.0 billion, to ¥0.8 billion, due mainly to fixed expense reductions realized by reforming the profitability structure.

Sales for the six months fell 16.8% from the same period of the previous year, to \\$102.2 billion, while operating income improved by \\$4.2 billion, to \\$2.5 billion.

[Asia]

Sales in Asia (excluding Japan) for the second quarter increased 47.1% from the previous second quarter, to \$179.2 billion. This was mainly attributable to favorable motorcycle sales in Indonesia, Vietnam and Thailand, coupled with the positive impact of exchange rates. Operating income soared 194.8%, to \$16.2 billion.

Sales for the six months rose 46.5% from the same period of the previous year, to \(\frac{\pma}{335.3}\) billion, while operating income jumped 195.7%, to \(\frac{\pma}{31.8}\) billion.

[Other areas]

Sales in other areas for the second quarter increased 19.3% from the previous second quarter, to \(\frac{\pma}{3}\)6.2 billion. This increase was mainly attributable to expanded motorcycle unit sales in Brazil, coupled with the positive impact of exchange rates. Operating income soared 351.3%, to \(\frac{\pma}{2}\)2.4 billion.

Sales for the six months rose 23.0% from the same period of the previous year, to \(\frac{4}{67.7}\) billion, while operating income improved by \(\frac{4}{2.7}\) billion, to \(\frac{4}{2.3}\) billion.

Sales amounts by geographical segment include intersegment sales.

(2) Qualitative Information on the Consolidated Financial Position

Total assets at the end of the second quarter increased by ¥30.1 billion from the end of the previous fiscal year, to ¥1,017.1 billion, due mainly to an increase of ¥53.9 billion in current assets, although fixed assets decreased by ¥23.9 billion. Net assets rose by ¥75.1 billion, to ¥324.4 billion, reflecting an increase of ¥37.3 billion in both common stock and capital surplus, raised by public offering, and an increase of ¥23.8 billion in retained earnings, among other factors.

Net cash provided by operating activities during the second quarter (April 1 through June 30, 2010) stood at \\$75.2 billion, while net cash used in investing activities totaled \\$6.6 billion. Consequent to these operating and investing activities, free cash flows during the second quarter amounted to \\$68.6 billion. Net cash provided by financing activities totaled \\$9.7 billion.

Net cash provided by operating activities during the six months ended June 30, 2010 stood at ¥84.2 billion, due mainly to income before income taxes and minority interests totaling ¥43.6 billion, an increase in notes and accounts payable totaling ¥27.5 billion, depreciation expenses totaling ¥18.6 billion, and a decrease in inventories totaling ¥16.1 billion, although trade notes and accounts receivable increased by ¥34.1 billion. Net cash used in investing activities during the six months amounted to ¥13.4 billion. This was mainly attributable to payments for purchase of fixed assets totaling ¥15.2 billion, because the capital investment on fixed assets was held below the level of depreciation expenses. Consequent to these operating and investing activities, free cash flows during the six months totaled ¥70.8 billion. Net cash provided by financing activities was ¥21.4 billion. The figure mainly reflects ¥74.6 billion raised in a public offering, and the appropriation of free cash flows to repay long-term dept and short-term borrowing.

As a result of all the activities discussed above, interest-bearing debt at the end of the second quarter under review decreased by \(\frac{\pma}{6}\)3.6 billion from the end of the previous year, to \(\frac{\pma}{3}\)36.4 billion — including \(\frac{\pma}{1}\)10.8 billion in borrowing for sales finance — while cash and cash equivalents increased by \(\frac{\pma}{8}\)88.2 billion, to \(\frac{\pma}{2}\)25.4 billion.

(3) Qualitative Information on Forecast Results

With the yen expected to remain strong against major currencies and raw material prices likely to rise, sales of motorcycles, all-terrain vehicles and other products in Europe, the United States and other developed nations are forecast to fall below the originally announced figures. On the other hand, motorcycle sales in ASEAN countries and other emerging nations are projected to increase from the original forecasts.

The projected exchange rates for the second half-year are \\$85 against the U.S. dollar (an appreciation of \\$3 from the original projection and \\$7 from the previous second half-year) and \\$108 against the euro (an appreciation of \\$20 from the original projection and \\$25 from the previous second half-year). The rates projected for the full year are \\$88 against the U.S. dollar (same as the original projection, and an appreciation of \\$6 from the previous year) and \\$115 against the euro (an appreciation of \\$13 from the original projection and \\$15 from the previous year).

Billions of yen

	Consolidated	Consolidated					
Net sales	Change from the original forecast: Change from the fiscal year ended December 31, 2009:	1,300.0 +4.0% +12.7%					
Operating income	Increase from the original forecast: Increase from the fiscal year ended December 31, 2009:	45.0 +35.0 +107.6					
Ordinary income	Increase from the original forecast: Increase from the fiscal year ended December 31, 2009:	55.0 +45.0 +123.3					
Net income	Increase from the original forecast: Increase from the fiscal year ended December 31, 2009:	25.0 +25.0 +241.1					

Note: "Change or increase from the original forecast" indicates the percentage or amount of increase from the forecast results for the fiscal year ending December 31, 2010, originally announced on February 12, 2010.

2. Other Information

(1) Outline of Changes in Significant Subsidiaries

None

(2) Outline of Application of Simplified and Special Accounting Principles

①Simplified accounting

(Measurement method for inventories)

In computing inventories at the end of the second quarter of the fiscal year ending December 31, 2010, the Company has applied a rationalized computation method, based on the actual inventory count at the end of the previous fiscal year, eliminating the need to physically take inventory.

(Computation method for fixed asset depreciation expenses)

In computing the depreciation of assets using the declining-balance method, the Company has allocated the annual depreciation expenses of the fiscal year to the relevant periods.

②Special accounting applied to preparation of the quarterly consolidated financial statements

None

(3) Outline of Changes in Accounting Principles, Procedures, Presentation Methods and Other Items

(Consolidated Balance Sheets)

In the Balance Sheet of the previous Consolidated Financial Results for the Second Quarter Ended June 30, 2009, the amount for machinery and transportation equipment was registered separately in "Tangible fixed assets" column. However, in the Balance Sheet of the Consolidated Financial Results for the Second Quarter Ended June 30, 2010, it is included in "Tangible fixed assets" column, due to its insignificance as a percentage of total assets, one ten hundredth or less.

(6) Notes in the Event of Material Changes in the Amount of Shareholders' Equity

The Company issued new shares with a payment date of April 20, 2010 in a public offering. This increased the number of shares outstanding by 55,000,000, the amount of capital by \(\frac{\pma}{32}\),455 million, and the amount of additional paid-in capital by \(\frac{\pma}{32}\),455 million.

Furthermore, new shares issued in a third-party allotment, with a payment date of May 11, 2010, increased the number of shares outstanding by 8,250,000, the amount of capital by ¥4,868 million, and the amount of additional paid-in capital by ¥4,868 million.

Consequently, the Company's capital and additional paid-in capital each increased by ¥37,323 during the second quarter under review. Thus, capital totaled ¥85,666 million and additional paid-in capital stood at ¥97,756 million at the end of the second quarter.
