Note. No mechanical stoppers are provided due to product characteristics. When necessary, the customer installs appropriate mechanical stoppers.

Note 1. Use the M6 hex socket head bolts to install the main unit.
Note 2. The sensor option position can be moved in a range of +/-50mm.
Note 3. Input power supply and signals to drive the motor.
Note 4. Select 24V power supply with a capacity of 5A or more.

Details including specifications and restrictions should be consulted before considering specific applications of LCM100.

Please contact our sales representatives in advance for consultations concerning the customer’s requests.
