Tool flange mount type

Keep enough space for the maintenance work on the top face of the base.

Note: Upper section requires a space of at least 250mm for detaching/attaching cover.
R27 (Min. cable bending radius) Do not move the cable.

Details of tool flange section

* Tube through hollow shaft protrudes about 300mm from the spline tip.
* Tube through hollow shaft does not rotate with spline during R-axis rotation.
