## **India Market Branding Campaign**

Was it while practising your baby steps? Or when you latched on to your first toy? When did you hear the call? Our engineers and designers heard it when they fused passion with precision to make the perfect racing machine for you. They heard it when they created the signature blue racing hue, just for you. No matter who you are, where you are, the call of the blue is inevitable. Feel it, live it and experience it.

- Despite being an emerging market, India has introduced regulations for emissions, brakes, and ethanol fuels on par with those in Europe before other countries. This gives it an advantage as a base for exporting to developed markets with similarly strict regulations.
- As a global Yamaha export hub, India Yamaha Motor not only contributes to the government's "Make in India" policy but also pursuing high quality while taking advantage of low-cost production capacity.

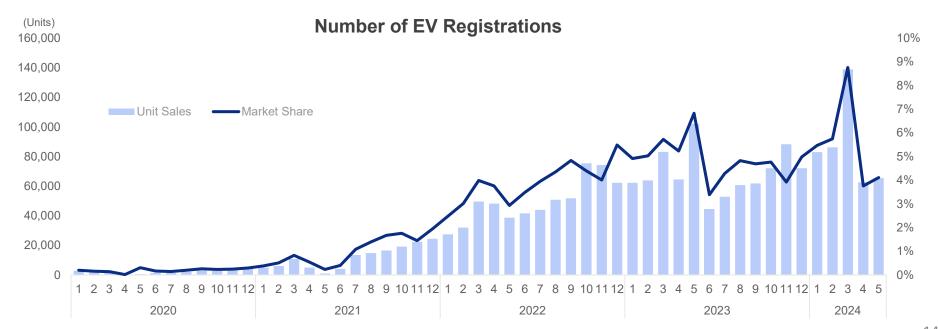

## EV Registrations in India

- The increase in government subsidies in June 2021 triggered a spike in unit registrations.
- Although the number of electric two-wheeler registrations temporarily dipped in April 2022 due to numerous reports of fires with the vehicles, the introduction of new models, discounts, and other sales promotion campaigns pushed registrations back upward.
- Government subsidies were reduced in June 2023 and again March 2024, sending monthly registrations flat.

#### Government subsidy amount (limit per unit) Reference : According to our survey

Until June 2023	Through March 2024	April 2024 onwards
Rs 50,000	Rs 30,000	Rs 10,000

#### **Expanding sales channels in line** with urban expansion

(Example: Bangalore)

# **Finance**

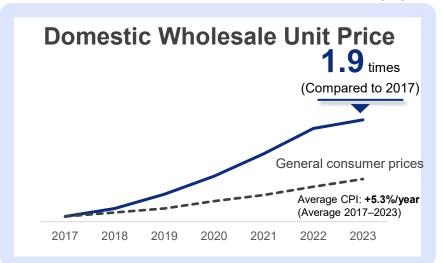

## **Improved Financial Position**

Since starting the premium segment strategy in 2018, our cost to income ratio has improved

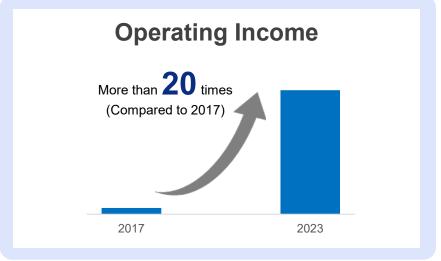

Point

- 1. Higher price per unit due to premium segment strategy
- 2. Integrated Faridabad Factory into the Surajpur Factory in 2020 and carrying on other measures to raise manufacturing efficiencies
- 3. Expansion of Blue Square stores bringing specific purchases that eliminate the need for discounts

# R&D

Main domain is India

## **Indian Laws and Regulations**

#### **Traits**

- Despite being an emerging market, India's regulations are fully up to date
- The process leading up to formal establishment is complex and discussions are long
- Decisions to postpone adoption are often made just prior to finalization
- Timelines do not take development periods into account at all

#### **Latest Trends**

### **OBD**\*1 2 Regulations

· April 2023: OBD2a adopted

· April 2025: OBD2b to be adopted

#### **Ethanol fuel**

E20\*2

- Began introducing E20 fuels in 11 cities from 2023. All Yamaha models are E20-compliant
- Models registered in 2025 must be E20-compliant.
- Plans for deployment throughout India by the end of 2026

FFV\*3

- Government policy: Supply E100 in addition to E20
- SIAM\*4 policy: Each OEM should launch 1 FFV model to the market by the end of 2024
- Limits for FFV fuel set at E20–85
- E100 composition decided at 93% ethanol/4~5% gasoline/2~3% additive

<sup>\*1</sup> On-Board Diagnostics, a vehicle self-diagnostic function

<sup>\*2</sup> Refers to 20% ethanol fuel in regular gasoline

Flex-Fuel Vehice
