In order to ensure accountability by providing shareholders and investors with appropriate, accurate, and timely information, Yamaha Motor has established a specialized division which engages in IR activities inside as well as outside Japan.

In 2012, in addition to announcing financial results and holding meetings for shareholders at the end of each quarter, the division visited investors in the U.S. and U.K. and disclosed IR information through its website. The division also runs a section of the website for individual investors. Furthermore, as one more part of actively disclosing information, there was a tour of the marine engine production facility as well as a briefing on our marine products business for analysts and journalists in June.
