

THE SEASONS

Christmas
"Sleigh"

Assembly Instructions

Thank you for downloading this special Christmas paper craft model. By following these instructions while referring to the names and numbers shown on the parts sheet, you can complete a paper craft model of a sleigh. You might also try making our Reindeer paper craft models located on a separate page of this web site. The Two Reindeer match perfectly with the sleigh!

■ Four A4-size sheets with 24 parts in all.

These instructions apply only to the "Sleigh".

These Paper Craft parts are easier to work with when printed out on strong, thick paper (like postcard stock).

*In creating these Paper Craft models we use 135kg Kent paper stock (0.18mm).

1

To begin

Tools and materials needed

- Ruler - Scissors - Blade cutter or "Exacto-knife" - Awl or other pointed tool (for making a folding crease)
- Felt pen - Pin set - Glue - Hand towel

Items of Caution

- * Take care when using sharp or pointed objects. When using bladed cutting tools, place a heavy sheet of paper under the paper you want to cut.
- * Use glue and other adhesives only in well-ventilated areas.
- * When printing, use a slightly reduced font size as there may be differences in dimensions depending on the type of printer used.

2

How to assemble

Cutting technique

- The part names and numbers are printed clearly on each sheet. When cutting out the parts, match the number of the parts shown in the instructions with the same number on the parts sheets.
- Cut carefully along the outline with a cutting blade, Exacto-knife or scissors.

One - point Advice

- Use caution when using a blade cutter.
- For folding parts, first use an awl or other pointed tool to make a light crease along the dotted or solid line. This will make the folds straight. Avoid making strong creases as this will cause the paper to tear.
- As an adhesive, white, wood glue is recommended. Avoid over-application as this will cause the paper to wrinkle.
- Before beginning assembly, test adhesive amounts on extra paper.
- Occasionally, white spots will be apparent on folds and cuts. Use a marker or pencil to fill in these spots. It is recommended that this be done after each stage of assembly because coloring becomes more difficult once parts are assembled.

Basic working method and markings

————— (Solid lines)

Fold along these lines. The printed surface should be on the outside of the folded shape.

(Shown as \wedge in the instructions)

- - - - - (Dotted lines)

Fold along these lines. The printed surface should be on the inside of the folded shape.

(Shown as \vee in the instructions)

————— (Bold line)

Cut along these lines.

(Shown as \blacktriangleleft in the instructions)

Please cut out parts marked with an asterisk. (*)

(Shown with the same mark as in the instructions)

Glue together parts with the same color and mark.

(Shown with the same mark as in the instructions)

3 Assembly

Please refer to the "Basic working method and markings" symbol chart.
Once the parts are folded properly, begin gluing and insertion.

Instructions

4 The Finished Model

***Try both the sleigh and the two reindeer.
You'll have the perfect Christmas display!***

To set the sleigh and reindeer together, insert the reindeer's legs through the circular "harness" at the front of the sleigh.

One-Point Advice

- Try a color version by using pre-colored paper.
- Try an uncolored version and create your own original model by adding your favorite colors or patterns!
